## MERN STACK WEB DEVELOPER

Islamabad, Pakistan | +923219880659 | ibrahimsaqib20@gmail.com | [LinkedIn Profile](#) | [GitHub Profile](#) |

### Objective

---

Self-motivated and hardworking individual aspiring to gain experience and exposure in MERN Web Development with utmost dedication. Eager to dive into real world problems and strengthen my current skillset and knowledge through professional expertise.

### Projects

---

#### Tech Vault – Ecommerce Website | MERN Stack (Mongo DB, Express, React, Node & Tailwind CSS)

Developed a full-stack end-to-end e-commerce website using the MERN stack. Implemented secure user authentication and a real-time inventory management. Integrated comprehensive shipping functionalities for efficient order fulfillment and logistics. Also designed a dynamic product catalog and streamlined user interface. This project demonstrates my expertise in full stack development and e-commerce solutions.

[\(Link\)](#)

#### Syndicate-Dev Landing Page | React, Tailwind CSS

Developed a responsive React JS landing page featuring a visually stunning hero section, high-quality assets and gradients, business statistics, reusable feature sections with call-to-action buttons, and testimonials. [\(Link\)](#)

#### Syndicate-Fitness | Mongo DB, Express, React, Node, Vanilla CSS

Revolutionized fitness by creating an app designed to keep track and progress of your exercises in your workout routine by tracking number of reps and weight.
